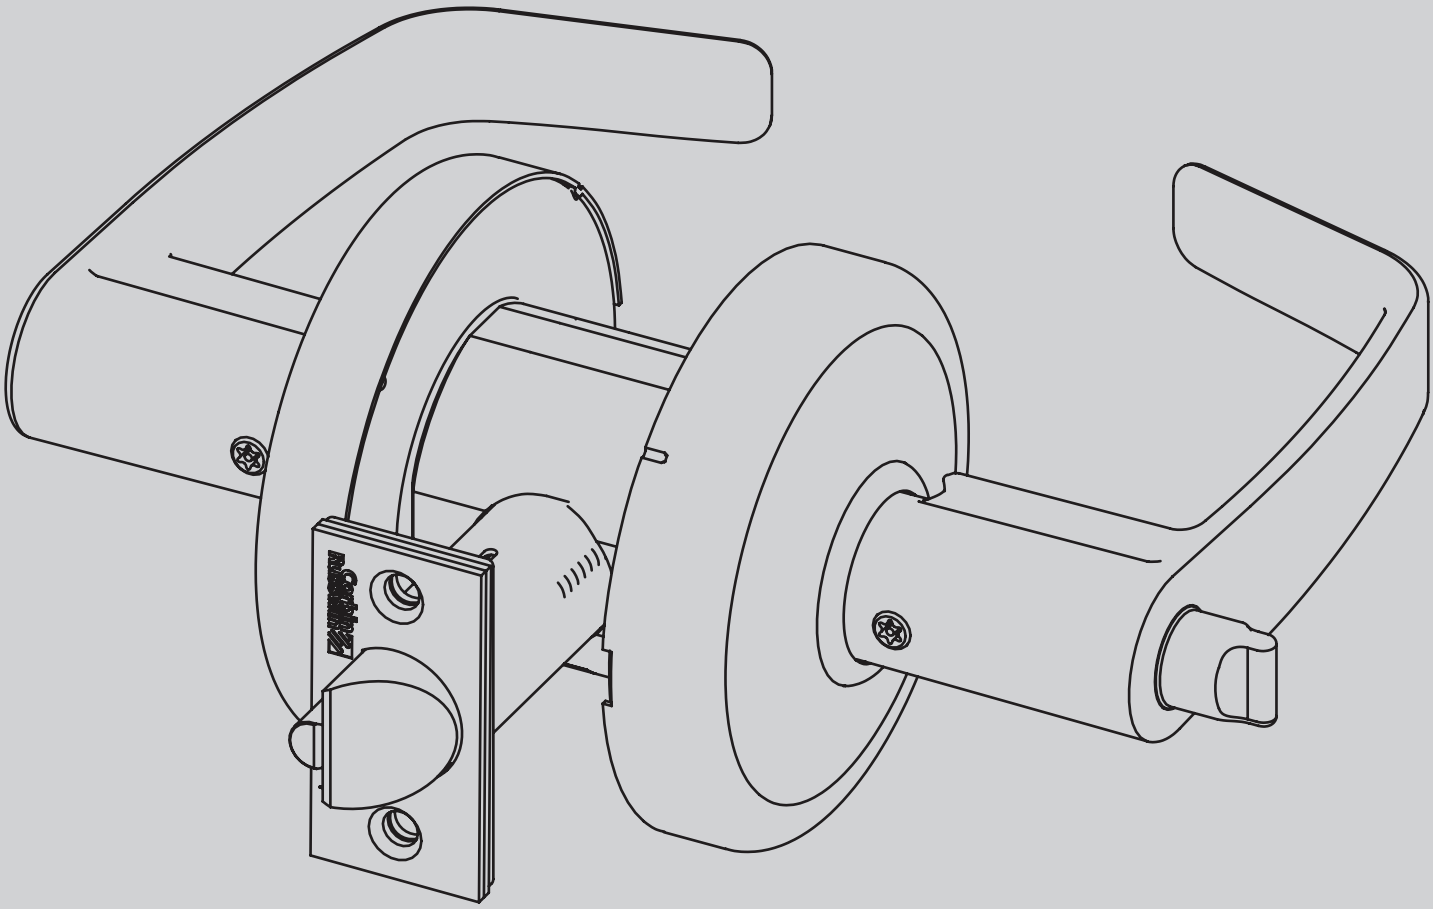
Corbin Russwin

ASSA ABLOY

CL3100 Series

Lever Lockset Parts Manual



Experience a safer
and more open world

Outside Inside	Series/ Function	Type	ANSI No.	Function Description	Page Number
	CL3110	Passage or Closet	F75	• Latchbolt by lever either side. • Both levers always free.	4
	CL3120	Privacy, Bedroom or Bathroom	F76A	• Throw-off latchbolt by lever. • Outside lever locked by push button on inside lever. • Outside lever unlocked by emergency release tool outside, by rotating inside lever or by closing door. • Inside lever always free.	5
	CL3120H	Hospital Privacy	—	• Outside lever locked by push button on inside lever. • Outside lever unlocked by rotating thumbturn on outside lever and releasing inside push button. • Rotating inside lever or closing door also unlocks outside lever.	6
	CL3129	Hotel or Motel	F93	• Deadlocking latchbolt by lever inside or by key outside. • Push button shuts out all keys except emergency key, and projects occupancy indicator in face of cylinder. • Push button released by turning inside lever. • Outside lever always locked. • Inside lever always free. • Not available with other manufacturers keyways • Pushbutton will not depress unless door is in closed position • Lockout key fixes pushbutton in locked position, shutting out all keys except emergency key. • Lockout key ordered separately.	7
	CL3132	Institutional or Utility	F87	• Deadlocking latchbolt by key either side. • Should be used only in office or room with multiple entries.	8
	CL3140NT	Exit Latch	F89	• Deadlocking latchbolt by lever inside. • Outside lever always locked. • Inside lever always free.	9
	CL3150	Half Dummy Trim	—	• Lever acts as pull only; no operation. • Lever is rigid.	10
	CL3151	Entrance or Office	F81	• Deadlocking latchbolt by lever either side, except when turn button locks outside. • Turning button locks outside lever, requiring key at all times. • Turning inside lever does not unlock outside lever until button is manually turned to unlocked position. • Inside lever always free.	11
	CL3152	Classroom Intruder	—	• Deadlocking latchbolt by inside lever or outside lever except when key inside or outside locks outside lever. • Key in either lever locks or unlocks the outside lever except when inside locks the outside lever - then only the inside key can unlock the outside lever. The outside key only retracts the latchbolt unless the outside lever is unlocked by the inside key. • Inside lever always free.	12
	CL3155	Classroom	F84	• Deadlocking latchbolt by lever either side, except when key outside locks outside lever. • Outside lever locked or unlocked by key outside. • Inside lever always free.	13

Indicates optional interchangeable core available.

The warranty on Corbin Russwin products becomes void if the product is modified in any way, regardless of whether the modifications causes or contributes to any alleged defect. If a Corbin Russwin product is modified it may no longer meet industry certification and quality control standards applicable to the original product and is no longer a genuine Corbin Russwin product.

Outside Inside	Series/ Function	Type	ANSI No.	Function Description	Page Number
	CL3157	Storeroom or Closet	F86	• Deadlocking latchbolt by key in outside lever or by rotating inside lever. • Inside lever always free. • Outside lever rigid at all times.	14
	CL3161	Entry or Office	F82A	• Deadlocking latchbolt by lever either side, except when push button locks outside lever. • Push button released by turning inside lever or by key in outside lever. • Closing door does not release push button. • Inside lever always free.	15
	CL3162	Communicating	F80	• Deadlocking latchbolt by lever either side, except when key in either lever locks and unlocks the lever independently of the other. • Keyed alike unless otherwise specified. • Should be used only in office or room with multiple entries.	16
	CL3170	Full Dummy Trim	—	• Levers act as pulls only; no operation. • Levers are rigid.	17
	CL3172	Apartment, Exit or Public Toilet	F88	• Deadlocking latchbolt by lever either side, except when key inside locks outside lever. • Key outside retracts latchbolt when outside lever is locked by key inside. • Key inside unlocks outside lever. • Inside lever always free. • Keyed alike unless otherwise specified.	18
	CL3175	Corridor/ Dormitory Lock	F90	• Latchbolt by lever either side except when pushbutton or key locks outside lever. • Pushbutton will not depress unless door is in closed position. • Depressed pushbutton indicates door is locked. Rotating inside lever releases button. • Inside lever always free. • Outside lever rigid when locked.	19
	CL3180	Passage Lever x Blank Plate	F111	• Deadlocking latchbolt by lever. • Lever on one side; blank plate on other side. • Lever always free. • For single or double communicating doors.	20
	CL3193	Service Station	F92	• Deadlocking latchbolt by lever. • Outside lever locked by push button. • Key retracts latchbolt when outside lever is locked. • Pushbutton will not depress unless door is in closed position • Push button released by turning inside lever or by key in outside lever, unless pushbutton is fixed in locked position by turning coin slot in inside lever. • Inside lever always free.	21

Indicates optional interchangeable core available.

MicroShield®

ASSA ABLOY Group companies offer MicroShield®, an anti-microbial coating for door hardware. MicroShield uses proven silver ion-based technology from Agion®, a leading provider of antimicrobial solutions, to stem the spread of bacteria and other microbes.

MicroShield® is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc.

agion® Nature's antimicrobial

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or impled, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA.
